1 Inserting file links

1. In the file you want to put a link to, run M-x sem-store-file-editmark in the place you want a link.

2. In the place you want to put the link, run M-x sem-insert-file-editmark.

Line nil in 2021-09-25-08-40-28.mp3

The default inserter from the hydra menu does this now.

TASK: figure out why file insertion doesnt work.

2 what is wrong with spell-checking?

I have been messing with spell-check for years it seems. It has never been super great. I had an old function in the editmark code, which I have now replaced. It works for now. One day I will spend another day or so getting it better.

3 What is wrong with html export?
